## Personal Note from Bob Snyder

We have decided to close down the sales division of SnyderScope International. The reason is health; I had a heart attack a few years ago. Also, I would like to do something where my wife, Posy, and I can work together. Our decision is YOUR gain. This mailer shows our new close-out prices. We will continue this sale until all is gone or someone comes by to purchase the remaining inventory. SnyderScope will continue to be available to you for consultation and upgrading or converting your disks even after the sales division is closed down. So, if you have any questions or need help to operate your Epson computer, don't hesitate to give us a call. We can even give you (or your technician) advice on how to repair your equipment or where you can obtain the parts or products you need. Consultation will be on a fee basis as usual.

Posy and I have founded the Southern California Graphology Association and will be available, as certified graphologists, to assist any individuals or companies who need to have a scientific personality analysis made. This, of course, is done through the study of an individual's handwriting, revealing more character traits than all of the traditional psychological tests combined. We will also be teaching graphology seminars. So, if you would like to learn a new occupation or add to your present knowledge, our first seminar is slated for August 16, 17 and 18 in San Diego. For more information, please give us a call at (619) 442-2650.

We are also involved in another family endeavour, "Lea's Lil' Friends", a unique line of gourmet foods for exotic birds, conceived and developed by our daughter and much in demand throughout the country. If one or more members of your family are birds, give us a call to obtain a catalog or purchase a sample pack. The Lil' Friends phone number is (619) 447-4039.

## HX-20 COMPUTERS AND PARTS

**Terms of Sale:** The items listed in this flyer are close-out items. Quantities are limited; call to check stock or if you are interested in something not listed. There are NO returns, all hardware comes with our 30-day warranty. Check your catalogs for shipping charges. If you do not have a catalog, send us \$1.00 and indicate which catalog you need. We accept personal or company checks; however, we will hold orders for 10 working days after deposit before shipping. There is no shipping delay for money orders or bank checks. Normal shipping is on Fridays. Orders received by Wednesday are normally shipped the following Friday if paid by certified funds. Sorry, NO COD, charge cards, or purchase orders. Any questions please call (619) 442-2299.
