Above systems are accessible using any computer or terminal with 300 (or 110) baud modem. There is no connect or usage charge. Type two carriage returns; the system is then self-instructing.

## Grow Your Own Tree

Now you can buy the CommuniTree (TM) software and run your own Conference Tree. You need an Apple II (TM) or II+ computer with 48K, DOS 3.3, and a Hayes MicroModem (TM). If you want, we'll help you publicize your conferences -- add your Conference Tree to the list above.

Order now to get your CommuniTree system: software, start-up conference, and a 150-page manual full of general telecommunications info as well as Conference Tree operating instructions. Complete CommuniTree system only \$120. (California residents add 6% sales tax.) Send check or money order to CommuniTree Group, 470 Castro Street, Suite 207-3002, San Francisco, CA 94114. If you have questions call our voice line at 415-474-0933.
