20 May 1977

Dear LOGO User:

There will be a LOGO Meeting this summer as I'd indicated earlier. Here is the announcement which is being submitted to ACM SIGCUE, SIGCSE, SIGART, AISB, and IJCAI.

ANNOUNCEMENT  
LOGO USERS MEETING

Following the August 22-25, 1977 meeting of the International Joint Conference on Artificial Intelligence (IJCAI) in Boston, Mass., there will be a special meeting on Friday, August 26, devoted to LOGO. The session will run from approximately 10 AM to 4 PM (lunch included) and will address issues of teaching in the LOGO environment, and of further development of LOGO activities. There will be opportunities for LOGO users to make brief informal presentations of ongoing work and to invite reactions from those attending. We will also discuss future plans for LOGO and consider ways of keeping better informed of each others' activities.

The meeting is open. Registration at IJCAI is not required. If you plan to attend, please send a note to Eva Kampits, 545 Tech. Square, MIT, Cambridge, MA. 02139. If you would like to also make an oral presentation, please submit a title and indicate the length of your presentation. Please direct any suggestions and questions concerning the meeting to me.

We expect to make a presentation on implementation strategies for the portable LOGO implementation. I hope to send you our proposal on the associated LOGO language specs next month. We will be keenly interested in your comments.

I hope you will be able to attend the meeting and look forward to seeing you there.

Sincerely,

*Wallace Feurzeig*
