7am - 5pm Pacific Time, Monday to Friday

## From the President:

Compatibility. It's the hallmark of every Editor's Choice Software catalog, and this latest WordPerfect edition is no exception.

But compatibility means more than just the ability to move data around easily (although that's important too). It means companion products guaranteed to help you leverage the investment you've made selecting, learning and using WordPerfect.

Products like Grammatik IV, the grammar checker that works *inside* WordPerfect 5. Definitions Plus!, offering instant definitions and usage notes to round out WordPerfect's speller and thesaurus. More Fonts, Publisher's PowerPak and SuperCartridge 2 — three great ways to improve the appearance of your documents. Plus Perfect Match, Black's and Stedman's dictionary word lists, and WordPerfect's own family of keystroke compatible add-ons.

Of course, word processing isn't the only thing your PC is good for, so we've also included an outstanding collection of software

\* \$59.95 value. \$35 minimum order required.

## WordPerfect 5.1 Upgrades

For your convenience, we now offer WordPerfect upgrades, including the latest, version 5.1 (see pages 4 and 5). To order yours, simply mail the title page from your Reference Manual with a completed order form and payment (we cannot accept upgrade orders by phone or FAX). Please allow time for your order to reach us, and eight working days for delivery. Sorry — upgrade orders are not eligible for the free PrintMaster Plus offer, unless another item valued at \$35 or more is ordered at the same time.

Picture  
Perfect  
Compatibility

designed to extend your productivity into new arenas — like desktop publishing (PFS:First Publisher) and personal finance (Quicken and J.K. Lasser). There's even something for the kids (or the kid in all of us) with the Fun Pack!

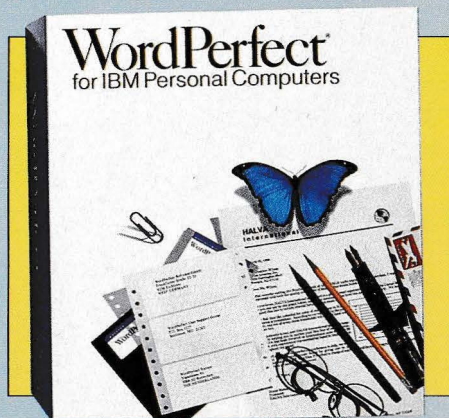

So why wait? Turn the page and dive in! And when you place your order, don't forget to tell us what size disks to send with your *free* copy of PrintMaster Plus.\* It's the perfect addition to your holiday festivities!

Happy holidays!

Fritz Feiten, President  
Editor's Choice Software

The new word processing standard

# WORDPERFECT 5.1

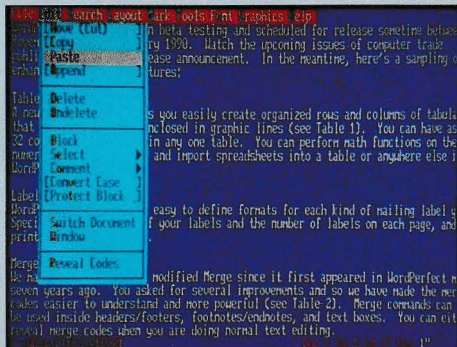

"...the most powerful, configurable, and multi-talented word processing program ever to appear on any class of computer."

- PC Magazine

Conventional wisdom in the software industry says that so-called "incremental" upgrades aren't worth bothering with. Those are the upgrades with only a small change in version number, like from 5.0 to 5.1, as opposed to going from 4.0 to 5.0.

But don't let that "5.1" in the name of this new version of WordPerfect fool you. This is one big leap forward for what is already the most popular word processor in the world. No matter what you do with WordPerfect, you can do it better and faster when you upgrade to version 5.1.

## Pull-down menus and mouse support.

In response to requests from many users, WordPerfect now includes pull-down menus that can be accessed with a single key. You can also move the cursor, block text, and access any function with a mouse. And context sensitive help gives you instant assistance with the feature you're currently using.

## Simple tables.

A new Tables feature lets you easily create organized rows and columns of tabular data that are auto-

matically enclosed with borders. You can have as many as 32 columns and 32,765 rows in one table and even perform math on the numeric data in a table.

## More natural tabs.

You can now set tabs relative to the current left margin, so they'll adjust automatically whenever you change the left margin. What's more, you'll see the results of tab changes as you redefine them, so it's easier to get your tabs just right.

## Easier mail merge.

Merge commands are now both more powerful and much easier to understand and use. Similar to WordPerfect's macro language, they can be used inside headers and footers, footnotes and endnotes, even text boxes. And you can hide or reveal merge codes while editing. Printing perfect mailing labels is easier too.

## VERSION 5.1 UPGRADE

To upgrade to WordPerfect 5.1, mail the title page from your Reference Manual with a completed order form and payment. Upgrades include disks and complete documentation (without a new binder). Upgrades cannot be shipped outside the U.S. and Canada, and do not qualify for the PrintMaster Plus offer.

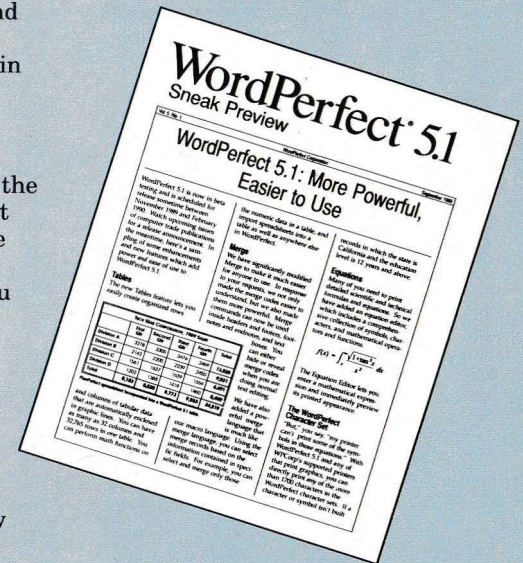

### WORDPERFECT 5.1

UPGRADE: \$75.00

5.25" disks #WDU21-5

3.5" disks #WDU21-3

REQUIRES: 512K, hard disk recommended

## Even more useful features.

An Equation Editor lets you enter a mathematical expression and immediately preview its printed appearance. Special characters such as  $\Sigma$ ,  $\Delta$ , and  $\text{\textcircled{C}}$  can be automatically printed as a graphic if your printer doesn't include the characters themselves. And hyphenation is now dictionary based, so it's more accurate.

All of this makes WordPerfect 5.1 easily worth the small \$75 upgrade cost. So upgrade now. And make your word processing work even more perfect.

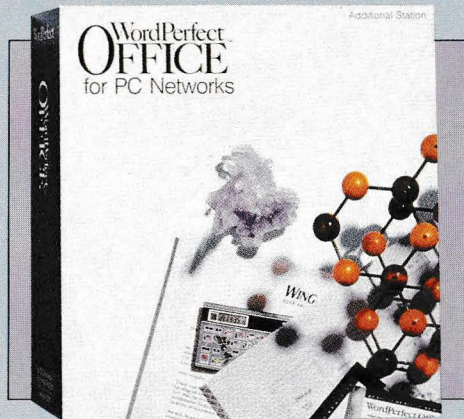

WORDPERFECT 5.1: \$259.00 (RETAIL PRODUCT)

5.25" & 3.5" disks #WDP21-2

Boost workgroup productivity

# WORDPERFECT OFFICE

- ◆ Exchange e-mail, phone messages and appointment schedules.
- ◆ Integrate application programs.
- ◆ Improve time management.

**C**ongratulations. You've decided to link the people in your office on a PC network. Now all you need is a way to make sure your network results in more network.

One great way is by turning your office into a WordPerfect Office. By integrating electronic mail, phone messaging, calendar, and scheduling features in a simple menu program, WordPerfect Office enhances workgroup communication – and that can mean a big productivity boost.

But that's not all. WordPerfect Office also provides convenient, single key access to WordPerfect and other programs. And it offers the handy desktop utilities in WordPerfect Library.

On-screen In and Out boxes make it easy to send and receive e-mail, phone messages – even text and data files. A unique Phone Message feature lets you take and distribute messages flawlessly. And the Calendar improves time management with daily appointments, to-do lists, memos, and an alarm.

Scheduling group events is a breeze with WordPerfect Office. You'll always know at a glance which people and facilities are available when and for how long. Simply select the best time, and each participant is automatically notified and given a chance to accept or decline. Review the responses, set a time, and each person's personal calendar is updated instantly.

WordPerfect Office runs on virtually any network that supports the DOS file locking feature. So, order today, and give your network the power of positive linking. (Retail price: 495.00, Workstations: \$150.00)

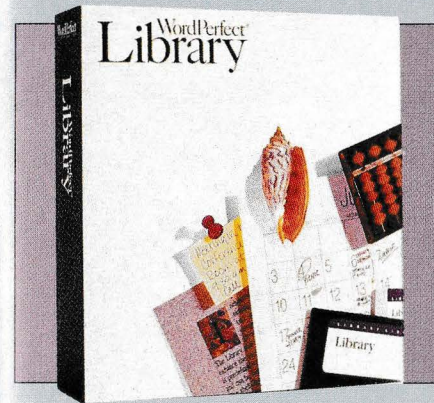

Save \$200

Organize your PC – and your life

# WORDPERFECT LIBRARY

- ◆ Integrates WordPerfect and other software.
- ◆ Includes Calendar, Calculator, Notebook with auto dialer, File Manager, plus Macro and Program Editors.
- ◆ Fully compatible with WordPerfect 5.1.

*"WordPerfect Library is second to none..."*

*– PC Magazine*

**W**ith software prices going up all the time, what can you get for 99-bucks these days?

How about:

A **Calendar** that helps organize your time, track appointments, and remind you of important events with an on-screen alarm. It even lets you print schedules and lists in a variety of formats – and merge them into a WordPerfect document.

A **calculator** (called "the best TSR calculator on the market" by PC Magazine) that provides an on-screen tape display, plus a full array of financial, scientific and statistical functions.

A four-function **Notebook**. It includes an address book, a phone directory, auto-dialer (requires Hayes compatible modem), and acts as a list manager for WordPerfect merge files.

A **Shell Menu** that provides easy access to all your programs. You can

move from one program to another or transfer data between programs instantly. And it comes ready to work with all WordPerfect programs, plus other software like 1-2-3 and dBASE.

Plus a **File Manager** for easy command of files and directories. A **Macro Editor**. A **Program Editor**. And a **Work Log** for tracking keystrokes or time spent on special projects.

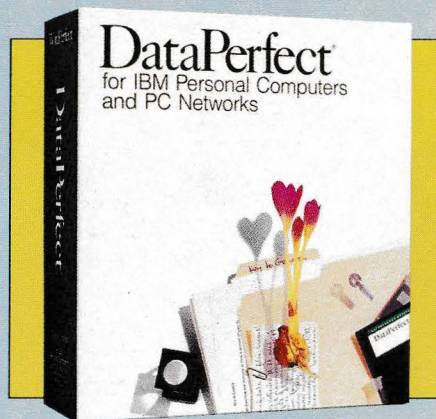

Get WordPerfect Library. And enjoy just about the most convenience and power you can buy for under \$100.

Data management without programming

# DATAPERFECT

- ◆ New! Version 2.1.
- ◆ Menu-driven to simplify database definition.
- ◆ Organize reference material with huge text fields.
- ◆ Distribute applications with Run-time Modules.

*"...provides powerful data management capabilities that are accessible without programming..."*

*- PC Magazine*

**W**hether you're a busy manager compiling a mailing list, or a researcher organizing hundreds of pages of reference notes - you'll manage information more easily with DataPerfect. Even if you've never used a database program before.

With DataPerfect's easy-to use menus, you can create databases that fit your needs exactly. But easy doesn't mean underpowered - not with flexible field formats, calculated field values, rapid indexing and search functions, and remarkably versatile reporting. Not to mention 32,000 character text fields and a capacity of 16 million records!

Commands have WordPerfect's familiar "look and feel" and on-line help is always available. Plus, new Run-time Modules make it easy to distribute DataPerfect applications. Now users can access, add, delete, edit

and print records without using DataPerfect itself.

Add compatibility with most networks, and you've got a powerful solution to just about any data management task. (Retail prices: single user/server - \$495.00, additional network workstations - \$150.00)

The only spreadsheet that's "perfect"!

# PLANPERFECT 5.0

- ◆ Completely compatible with WordPerfect.
- ◆ Export spreadsheets and graphs to WordPerfect documents.
- ◆ Choose from three user interfaces, including Lotus 1-2-3 style.

*"...an excellent tool for word processor users, especially if they use WordPerfect."*

*-PC Magazine*

**T**here are plenty of spreadsheets for number crunchers - why not one for word crunchers? That's the idea behind PlanPerfect, the only spreadsheet for WordPerfect users. And new version 5.0 offers more power and flexibility than ever.

PlanPerfect's compatibility starts with a function key interface that's familiar to anyone who's used WordPerfect. But it's just one of three you can choose from. The program also offers pull-down menus or slash key commands similar to Lotus 1-2-3.

It's also the only spreadsheet that exports data to WordPerfect in either a spreadsheet-like format (with columns aligned on tab stops for proportionally spaced printing) or WordPerfect Merge format.

Of course, PlanPerfect also includes a data manager, presentation quality graphs, powerful macros, worksheet

linking, cell annotation, Data Forms for fast data entry, the ability to work with two spreadsheets at once, and network support.

Plus, it incorporates WordPerfect's printer drivers, making it easy to produce outstanding text output using different font styles, and attributes like bold, underline and italics.

If you use WordPerfect, this is definitely the spreadsheet for you. And even if you don't, you'll be delighted by PlanPerfect's unique combination of power and ease-of-use.

Order today and find out for yourself. (Retail price: \$495.00)

The definitive legal & medical references

# BLACK'S LAW DICTIONARY STEDMAN'S MEDICAL DICTIONARY

- ◆ Combine with WordPerfect's own dictionary for complete "one-pass" spell checking.
- ◆ Handy, electronic versions of the reference works legal and medical professionals depend on.

**NEW -  
Dictionary Word Lists  
for WordPerfect**

**P**referred by legal and medical professionals for over 75 years in printed form, Black's Legal Dictionary and Stedman's Medical Dictionary are now available in electronic form. And they work directly with WordPerfect's own spelling program.

Designed exclusively for WordPerfect 5.0, these special edition word lists are easily integrated with its standard dictionary, creating the ultimate "one-pass" spelling checker for documents containing legal and medical terminology.

The Black's Law Dictionary word list includes 16,000 correctly spelled terms and phrases of American and English jurisprudence - terms like *amicus curiae* and *astitarius haeres*. It's a must for anyone creating documents dealing with any aspect of law, taxes, finance or accounting.

The Stedman's Medical Dictionary

word list provides 68,000 medical terms, including biological and chemical names like *Escherichia coli*, proper names like Apgar, surgical terms like Bardex-Foley, generic and trade drug names, acronyms, abbreviations and more.

Now WordPerfect 5.0 users have access to two respected reference works - without sacrificing precious RAM, or learning new commands.

More convenient to use than ever

# GRAMMATIK IV

Save  
\$20

- ◆ Detect over 10,000 types of writing errors.
- ◆ Check documents from inside WordPerfect.
- ◆ Choose from six writing styles - including one you design.

**"... the best package  
in its field."**  
- InfoWorld

**F**irst there were spelling checkers, great little utilities that made sure you didn't put *thier* in your letter when you meant *their*. Then came grammar checkers, smart programs that actually pointed out embarrassing little gaffes like dangling prepositions, split infinitives, and the dreaded passive voice.

The best selling grammar checker of them all was Grammatik III. And now this incredibly useful program has evolved into a more powerful, more versatile program than ever - Grammatik IV.

Grammatik IV provides you with the most comprehensive electronic proofreading available. It will check for grammar, style, usage, punctuation, and spelling errors - all in a single pass. Thousands of new writing rules, combined with sophisticated artificial intelligence, give Grammatik IV the power to identify *more than* 10,000 possible writing mistakes.

And now you can use Grammatik IV right from within WordPerfect 5.

Just hit a hot key and Grammatik IV saves your file and springs into action.

When Grammatik IV flags an error, it tells you the problem, offers help in solving it, and lets you make the correction *immediately* - so it's faster than ever to improve your documents. Press another key and you're back in your word processor - with the corrected document on your screen.

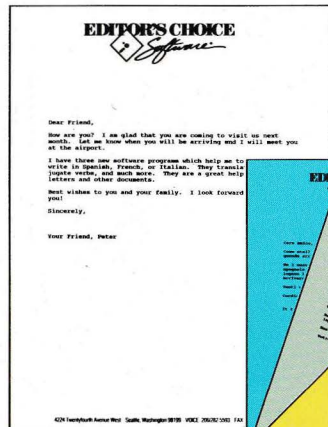

Grammatik IV lets you choose from six writing styles, including business, technical, and informal. You can even build your own style and write your own grammar rules. Plus, it comes with a free copy of the writing guide, *Secrets of Successful Writing* (a \$9.95 value).

Order Grammatik IV. You'll write better or your money back - guaranteed. (Retail price: \$99.95.)

# LANGUAGE ASSISTANTS

- ◆ Get instant help writing, studying, and learning Spanish, French and Italian.
- ◆ Translate entire documents with one keystroke.
- ◆ Works directly with WordPerfect.

*It's like having your own personal translator!*

It's nothing short of miraculous. Press a key and each word in document is translated one-by-one into Spanish, French or Italian! Or type a word in English and see its foreign equivalent instantly. Or find out immediately how to conjugate that pesky verb – even in tenses like present perfect subjunctive!

That's what you get with the Language Assistant series. Each package – Spanish, French or Italian – is an outstanding way to write, learn, and study these languages. And each one works in memory-resident mode, right along with WordPerfect, or as a handy standalone reference.

Either way, you'll have instant access to excellent bilingual dictionaries. Each one offers complete conjunctions for over 2,000 verbs. Word-for-word replacement or translation of entire documents. Help with a wide range of grammar topics. And even an

easy way to add accent characters such as “ñ” to your documents.

Best of all, any word you look up – either translation or verb conjugation – can be inserted into your document with one keystroke.

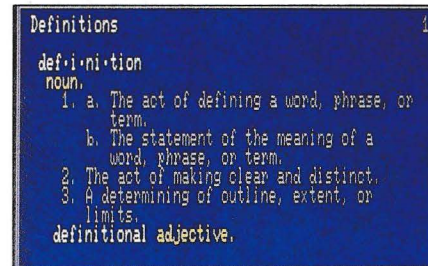

So order your choice of Language Assistants today. It's the only way there is to hire a full-time translator for just \$49.95!

**The electronic American Heritage Dictionary**

# DEFINITIONS PLUS!

- ◆ Add a 115,000-word dictionary to WordPerfect.
- ◆ Get instant definitions, usage notes and more.
- ◆ Works with WordPerfect and its spell checker/thesaurus.

**H**mmm. Is the word you need affect or effect? To find out you could stop what you're doing, find a dictionary, look up the words, and return to your work.

Or you could pop-up Definitions Plus! and get complete definitions without leaving your word processor.

Definitions Plus! turns the Office Edition of the best-selling American Heritage Dictionary into an ingeniously simple program. It provides multiple definitions, parts of speech, usage notes, and more for over 115,000 words and word forms.

Simply press a hot key and instantly a window pops up over WordPerfect with full, clear information about the words you're working with. You get all the detailed information of a printed dictionary – electronically. You can even cross-reference words within the Definitions Plus! windows until you find just the right one.

With Definitions Plus!, you'll always know exactly what a word means – and how to use it. So your writing can be more precise, more effective. And you'll be able to work

without stopping to track down a dictionary and look up the words you need. The result – you get more done.

All of these thousands of words and definitions must take up half your hard disk, right? Wrong. State-of-the-art programming packs a full-size dictionary into just 2.3 megabytes of storage.

Even if you seldom use a dictionary, Definitions Plus! may change your habits – and your writing – with its instant displays of comprehensive dictionary information. And it's one dictionary that never gets misplaced!

Definitions Plus! Guaranteed to be the most educational and informative hard disk-based reference dictionary software available (Retail price: \$95.00).

**Save \$10**

Create an effective resume instantly

# INSTANT RESUME

- ◆ Everything you need to create effective, professional resumes.
- ◆ Learn from real resumes that produced real jobs.
- ◆ Work within your word processor.

**"The ultimate resume writing system."**  
 — Director of Career Services,  
 Harvard University

**A**s the saying goes, you never get a second chance to make a great first impression. And when it comes to job hunting, it's your resume that makes the first impression.

Make sure yours is the most effective resume possible, with Instant Resume. This comprehensive approach to resume writing includes hundreds of proven resumes and cover letters on disk, plus two great books, *Resumes That Knock 'Em Dead* (with the full text of each resume) and *Great Answers to Tough Interview Questions*.

Showcase your talents with the right resume format, from chronological to accomplishment. Then choose from hundreds of resumes specific to jobs in nearly every industry.

Just select the cover letter or resume you want from the pop-up menu — right from within your word processor. Intelligent prompts guide

you step-by-step, asking for the information needed to customize your resume. Type it in once, and the program automatically enters it wherever it's needed. Then, print your resume on any printer your word processor supports.

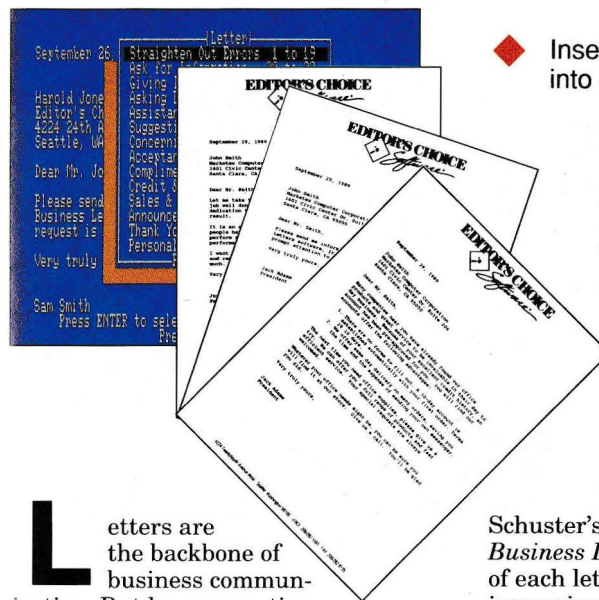

Keep track of the companies you contact with Instant CardFile (included free) and merge names and address with your cover letter to save time and minimize errors.

Whether you're going after your first job or planning a career change, make your first impression count — with Instant Resume.

Convert WordPerfect documents perfectly

# PERFECT EXCHANGE

- ◆ Convert documents between WordPerfect and 17 other word processing programs.
- ◆ Eliminate retyping of documents produced with other programs.
- ◆ Work quickly with automatic document conversion.

"...more thorough and accurate than any other program tested..."  
 — PC Magazine

**C**an I get that from you on disk? — is an increasingly familiar phrase in today's offices. Unfortunately, not everyone uses WordPerfect. So getting a word processing file on disk often means reformatting the whole thing — or worse.

Not any more. Perfect Exchange accurately converts documents to and from WordPerfect and 13 other word processing programs — including Microsoft Word, WordStar, MultiMate and Displaywrite.

Documents converted by Perfect Exchange have the look and feel of one created with WordPerfect. Tabs, indents, bold, underline, headers, footers and more are all fully intact.

Quick and simple to use, Perfect Exchange converts files directly from disk in as few as three keystrokes. Or

you can convert up to 250 documents automatically!

You're assured of faithful conversions because Perfect Exchange is from the makers of Software Bridge (#SBR21-5 or 3, \$149.95), the program PC Magazine named its Editor's Choice two years running. Now you can put that same award-winning performance to work for you in an attractively priced version designed especially for WordPerfect users.

Get Perfect Exchange — it's one program that's likely to pay for itself the first time you use it.

**PERFECT EXCHANGE:** \$79.95

# FREE OFFER FROM THE COBB GROUP

# TURN TO PAGE 32 NOW!

# Extend your productivity SCREEN EXTENDER

- ◆ Increase display size while editing.
- ◆ Get on-screen fonts without additional hardware.
- ◆ Avoid horizontal scrolling.

## NEW! Larger screen display and on-screen fonts for WordPerfect 5.0

If you use proportional fonts, you know how cramped WordPerfect's 25 row by 80 column screen display can feel. Proportional and compressed fonts squeeze more characters on each line. And that means annoying horizontal scrolling if you want to see all your text.

With Screen Extender you choose the ideal screen size for each document, displaying as many as 60 rows and 128 columns of text. Change the screen size anytime – even while editing a document. Zoom in and pan out on demand, selecting row and column dimensions independently.

Plus, Screen Extender gives you a true WYSIWYG display, allowing you to see the fonts you're using on-screen, so you know what to expect at print time.

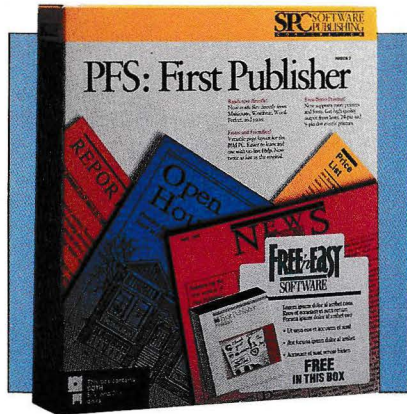

Memory resident Screen Extender does its magic by running your PC's graphics adapter (Hercules, CGA, EGA or VGA) in graphics mode, so all WordPerfect features are fully functional with any screen size. And it uses just 45-60K RAM, depending on display type.

For anyone who routinely edits wide documents, Screen Extender is more than a convenience – it's a necessity.

Easy, affordable desktop publishing

# PFS:FIRST PUBLISHER

- ◆ Transform WordPerfect 5 documents into outstanding publications.
- ◆ Create attention-getting newsletters, reports, announcements and more.
- ◆ Take full advantage of dot-matrix, laser or HP DeskJet printers.

*Get the Holidays Art Portfolio free!*

**G**et ready for the holidays – and beyond, with PFS: First Publisher and the *free* Holidays Art Portfolio. It's everything you need to create attention-getting newsletters, flyers, announcements, and other publications quickly, easily and affordably – even if you're new to desktop publishing.

Bring words and graphics together on screen just as they'll appear when printed. Import text from WordPerfect 5. Place up to four columns on a page, Wrap text around graphics automatically. Draw rule lines and boxes. And get great looking output from dot-matrix, laser or HP DeskJet printers.

PFS: First Publisher comes with hundreds of professional clip art images and fonts, plus a Bitstream Font Sampler for HP Laser printers, and over 100 images for all major holidays in the free Holidays Art Portfolio.

A huge array of additional clip art is available, or you can import files from popular paint programs and capture screen images with the

SnapShot utility. Built-in graphic tools let you rotate words and graphics, flip, resize or invert images, and even modify them pixel by pixel.

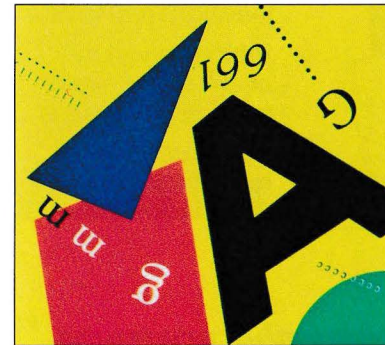

Want more options? The new Business Template Kit provides a collection of 20 templates, plus 100 art images and 7 executive fonts designed especially for business professionals. (Retail price: \$89.00)

If you think successful desktop publishing requires complex, expensive software, think again. All it really takes is PFS: First Publisher. (Retail price: \$129.00)

Get the most from your dot-matrix printer

# PUBLISHER'S POWERPAK

- ◆ Get the highest quality output from any dot-matrix, ink-jet or laser printer.
- ◆ Scale fonts to any point size.

**I**t isn't often that something can truly be called a "breakthrough". But if you'd like to improve the way your dot matrix printer output looks, that's what you'll call Publisher's Powerpak. It's a breakthrough that gives your work new quality and impact.

First, Publisher's Powerpak uses advanced printer driver technology to give you outstanding output from any dot matrix, inkjet, or laser printer. Then it lets you add new scalable fonts to your WordPerfect documents.

You get the three most popular fonts – those similar to Times-Roman, Helvetica, and Courier, with dozens more available. And, since the program scales (sizes) fonts on the fly, you don't need a lot of disk space to store them – just 50K per font for all sizes.

Use font's in any size, from 6 point all the way up to 1,000 point! Each one is perfectly matched with the resolution of your printer, so you

always get smooth curves, sharp lines, and superb looking documents. For faster printing, there's a draft mode. Or print sideways in landscape mode.

Best of all, Publisher's Powerpak couldn't be easier to use. It works right inside WordPerfect 5, so there are no new commands to learn.

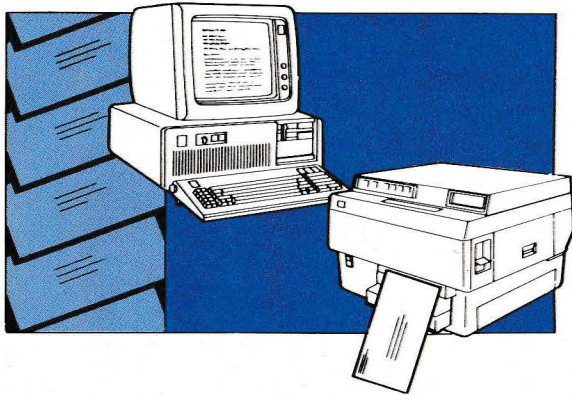

If you're using WordPerfect with a dot matrix printer, Publisher's Powerpak is a must. And if you use an ink jet or laser printer you'll enjoy having virtually unlimited type sizes to choose from.

So order Publisher's Powerpak today. And discover how good your output can look.

Print smart-looking envelopes easily

# ADDRESSELOPE

- ◆ Capture and print addresses off the screen – without leaving WordPerfect.
- ◆ Print on a variety of envelopes – one or several at a time.
- ◆ Add your own promotional messages.

"...has all the best features of comparable programs."

– PC Magazine

It's ironic – you have a powerful computer sitting on your desk and what do you use to address envelopes? A typewriter! Yet it's really not surprising. Addressing envelopes with a computer has always been more trouble than it's worth.

Until Addresselope came along. This handy memory-resident utility – which uses just 44K bytes of RAM – waits until you have an envelope to address. Then it pops up, captures the address from the letter you've already typed, and prints it on any LaserJet, daisywheel, or dot matrix printer (it even supports the LaserJet II's optional envelope tray).

Addresselope works with WordPerfect and other popular word processors, as well as with many database management and mailing list systems.

In addition to capturing addresses automatically, you can quickly enter or edit addresses yourself. Select from four different envelope formats or

configure your own. And use one of ten predefined return address formats – or turn it off for preprinted envelopes.

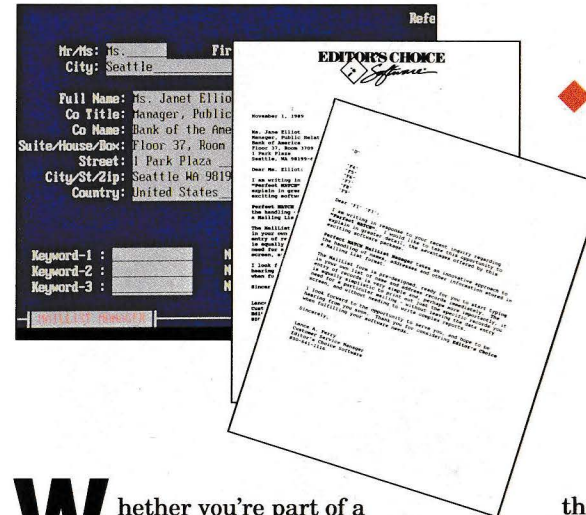

Addresselope lets you print envelopes one at a time, capture up to 16 addresses and batch print them, or produce bulk mailings from a mailing list file. You can even print an advertising or promotional message on your envelopes!

If you write even one letter a day, Addresselope will quickly pay for itself in saved time, convenience, and the enhanced appearance of your correspondence.

Manage mailing lists with ease

# PERFECT MATCH

- ◆ Type mailing list information into a pre-designed form.
- ◆ Select only the records you want for a specific mail merge run.
- ◆ Streamline your mail merge projects.

Whether you're part of a business, professional office, organization, school, or other group, chances are you do mailings. Mailings to customers, prospects, members – anyone and everyone you need to keep in touch with. And, no matter how often you do mailings, you'll save time with Perfect Match.

Designed specifically for WordPerfect, Perfect Match is the easy way to manage all of your mailing list information. With this versatile, easy-to-use program, you simply type your names and addresses into a pre-designed form, adding any keywords or notes to make it easy to keep track of different kinds of records. Then export records directly into WordPerfect to use with your merge letters.

You can sort the records in any order – by last name, company name, zip code, state, whatever. Changing the sort order is as easy as changing your mind.

Perfect Match offers you a number of printing options, too. Let's say you want to print a phone list using only

the full names and telephone numbers in your mailing list. Just mark those two fields and you're set.

Want to narrow the list down? Type in any selection criteria to choose a specific set of records. If you only want the phone numbers for people in New York, all you do is enter "NY" in the State field.

Just think. No complex Merge Codes or commands to remember. No difficulty choosing specific records for particular mail runs. And complete compatibility with WordPerfect.

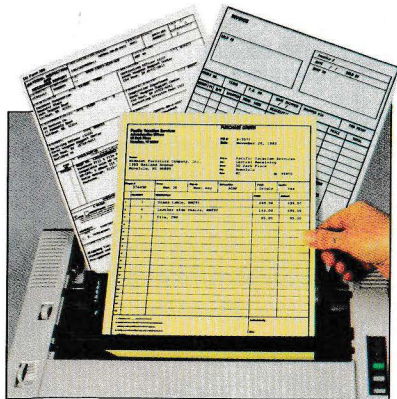

It's easy to see why this program is called Perfect Match. And, if you ever send out mailings, it's even easier to see why you need it. (Retail price: \$89.95)

The ultimate "Form Solution Kit"

# FORMWORX

- ◆ Create any form quickly and easily.
- ◆ Fill out forms with on-screen templates.
- ◆ Print the results on any graphics printer.

**"No more correction fluid, smudgy erasures, or sudden disappearances of hard-to-replace forms."**

- PC World

One thing all businesses have in common is forms. Expense reports, logs, requisitions, and more. Forms that must be created, updated and filled in.

Unfortunately, forms and computers haven't always gotten along. Available software made form design difficult and time consuming. And was no help at all for filling-in standard preprinted forms.

But that was before FormWorx with Fill & File - the all-in-one program that lets you easily create and fill-in any form right on the screen.

Pull-down menus make creating even complex forms a breeze. Mix multiple type styles and sizes. Take advantage of versatile line spacing for fill-in areas. Add special touches like borders, check boxes, and shaded areas. Then use the full potential of your dot matrix or laser printer to produce business forms that look business-like.

And FormWorx is equally terrific at filling in forms - including preprinted forms. Just tab from blank to blank,

typing data into an on-screen representation of your form. Or merge data directly from dBase and ASCII files.

FormWorx - there simply isn't a faster or easier way to create and fill in forms.

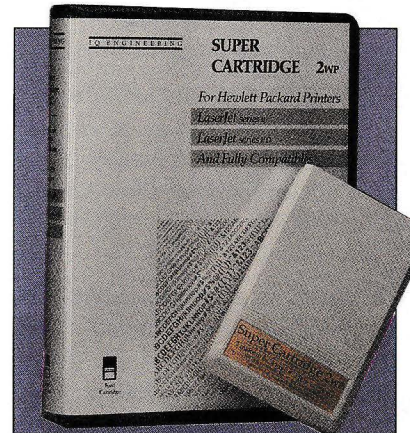

## FREE Bonus Disk!

Order FromWorx now, and we'll include a free bonus disk with 70 essential business forms, plus handy form fill-in templates for common preprinted forms from 1099s to Federal Express airbills.

All the fonts you'll ever need

# SUPER CARTRIDGE

- ◆ Get every useful font in one LaserJet cartridge.
- ◆ Save money by using a single cartridge.
- ◆ Enhance your work with a variety of attractive fonts.

You want a choice of fonts in your WordPerfect documents, but you don't want to give up hard disk space to "soft" fonts. You could spend a fortune on a collection of LaserJet font cartridges - or get every font you're likely to need with a single Super Cartridge.

With a Super Cartridge, you'll have fonts in a variety of sizes, so you can tap the full power of WordPerfect by using the right font for every situation. And a Super Cartridge is extremely convenient to use. Just plug it in and you're set. There's no cumbersome downloading to worry about.

Choose the Super Cartridge 1 for the original LaserJet and LaserJet Plus, or the Super Cartridge 2WP for the LaserJet Series II and IID. Both include Helvetica in every size from 8 points to 24 points. Plus Times Roman from 6 points to 24 points - including the very useful 11 point size.

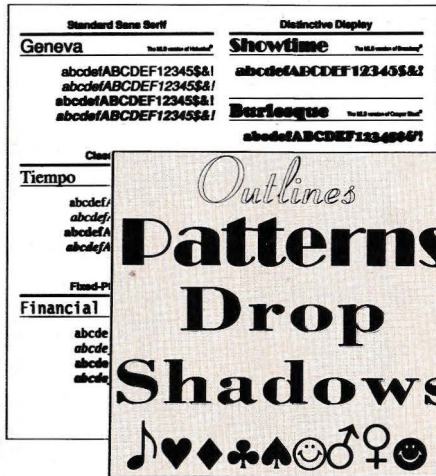

For the ultimate in font selection there's the top-of-the-line Super Cartridge 2, PC Magazine's Editor's Choice of font cartridges. It includes proportional fonts in sizes up to 30 points, fixed pitch fonts, and even more special symbols - 17 typefaces in all in one cartridge.

Super Cartridge. It's the easy, convenient way to get the most out of WordPerfect and your LaserJet.

Everyone can use some more fonts

# MOREFONTS

- ◆ Create your own custom LaserJet or DeskJet fonts.
- ◆ Add your choice of exciting special effects.
- ◆ Download fonts up to 15 times faster than other font packages.

*"The special effects alone are worth at least the cost of the entire package."*  
 - PC Publishing

Soon after the initial thrill of having a LaserJet or DeskJet printer wears off, the realization dawns that you need more fonts to really take advantage of its capabilities. You could spend hundreds of dollars on various font packages.

Or just \$99.95 on MoreFonts – and get more fonts than you may ever need. Much more than a package of fonts, MoreFonts is a font generation system that gives you endless possibilities in creating your own type families.

You get fonts similar to Times Roman and Helvetica (both in roman, italic, bold, and bold-italic), plus lookalikes of Broadway, Cooper Black, University Roman, Coronet, Bodoni Bold, and Letter Gothic. Each font is scalable, so you can use them in any point size.

But your customizing has just begun. Because MoreFonts allows you to embellish font's with your choice of special effects. Add an outline, a drop shadow, a fill pattern, or any combination.

MoreFonts offers 17 fill patterns, including various shades of grey, horizontal and vertical lines, and novelty patterns like Wood Grain. How about a 30-point, italic, light outline, right drop shadow, shaded font?

Once you've decided on your font's attributes, preview it on screen instantly, then download it to your printer 5 to 15 times faster than other font packages.

MoreFonts works great with WordPerfect. Once installed, simply choose your fonts as usual from WordPerfect's menus. They'll be downloaded automatically when your document calls for them.

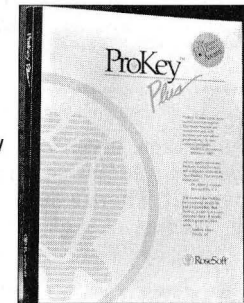

So get MoreFonts, and get the most from your laser or ink jet printer.

Tired of repeating yourself?

# PROKEY PLUS

- ◆ Perform hundreds of keystrokes with one key.
- ◆ Access features with new pull-down menus.
- ◆ Create macros as you work.

*"ProKey remains atop the heap because it's well thought out, powerful and easy to use."*

- Jim Seymour, PC Magazine

Even the best software needs to be told what to do. Keystroke by keystroke. But repeating the same tedious commands over and over takes time and forces you to focus on the mechanics of the computer – instead of your work.

ProKey offers a better way to lead your software by the hand. Here's how: ProKey memorizes the words and commands you use regularly and stores them as a single task, called a "macro". You can choose any key or abbreviation you like as a name for that macro. Then at the touch of a key, ProKey performs the entire task for you.

And the new ProKey Plus adds even greater flexibility and ease of use, with pull-down menus and user created multilevel help messages, plus a History command that automatically turns your last 300 keystrokes into a macro, and speed typing for often used words and phrases. ProKey Plus even puts the date and time into your work anywhere you need it!

So get ProKey Plus – and concentrate on getting results, instead of typing commands.

**Special Offer**

*Includes FREE Starter Macros for popular word processing, spreadsheet, and database programs.*

## End disk incompatibility

The problem is simple enough. Your laptop, PS/2 or other new computer uses 3.5" disk drives, but your trusty PC compatible has 5.25" drives. And you want to transfer files from one to the other.

Now the solution is just as simple: Rapid Relay Easy, the file transfer utility that's fast, safe and inexpensive. Just attach the universal serial cable (included) and use the point-

# RAPID RELAY *Easy*

*" Provides fast, safe file transfer between 5.25" and 3.5" disk PC's. "*

and-shoot menus to select the files. Transfer individual files, groups of files, or entire directories at an amazing 115,000 bits per second.

You could spend more for a file transfer utility - but you won't find one that's easier, faster or more reliable.

**RAPID RELAY EASY \$69.95**  
5.25" & 3.5" disks #RAP21-2

## World's smartest dictionary/thesaurus

# WORDFINDER

*" WordFinder has changed my life! "*

- William F. Buckley Jr.

Mark Twain once said "the difference between the almost-right word and the right word is the difference between a lightning bug and lightning."

If you agree, you'll love how the new WordFinder Electronic packs a 100,000 word spelling dictionary and 220,000 word thesaurus into a six-ounce package small enough to fit in your pocket, purse or briefcase.

Type in "FENOMONAL" and you'll get phenomenal. Type in "PH??NAL" and select phenomenal from other possibilities. Press the synonym

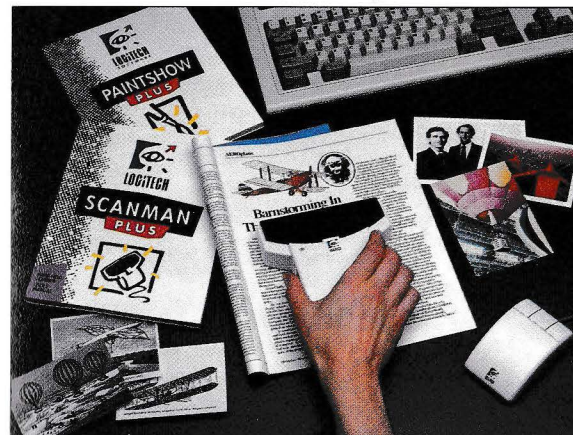

button, and get amazing, unique, brilliant and other words that describe WordFinder perfectly, exactly, precisely...

**WORDFINDER ELECTRONIC: \$89.95**  
Size: 5 X 6 X 9/16 #WFH61-0

## The power of images - instantly

# SCANMAN PLUS

- ◆ Scan drawings, photos, newspapers - just about anything.
- ◆ Integrate images in your WordPerfect documents.
- ◆ Includes PaintShow Plus.

This is the age of "compound documents" which combine both text and graphics. Advanced word processing packages like WordPerfect 5 are made for just this kind of work. But there's one catch - you need a way to get graphic images.

Well, here it is: ScanMan Plus, the hand-held, affordable, easy-to-use personal scanner. Simply scan the image you want, edit it, and use it in WordPerfect and other applications.

ScanMan Plus lets you quickly scan images up to 4" x 14", at resolutions from 100 to 400 dots per inch. Plus, you can display images in 32 shades of grey, and choose between a line art setting and three dither patterns for photos.

PaintShow Plus, a graphic editing program that's included free, lets you edit scanned images to fit your needs exactly. Rotate, resize, cut, magnify, merge, reverse, color, or flip images - then print the results.

Choose from three different scanning methods: scan directly into

PaintShow Plus, edit the image, and import it to your application. Scan into Microsoft Windows, then save the image in TIFF, PCX, or MSP format. Or scan from the DOS prompt to a TIFF, PCXC, or IMG format file.

With optional Optical Character Recognition (OCR) software, you can even scan text and use it as if it had been typed directly into WordPerfect or other application.

If you use WordPerfect, you already have a great way to combine text and graphics. Now get the graphics you need with ScanMan Plus. (Retail price: \$339.00, or \$399.00 PS/2 version.)

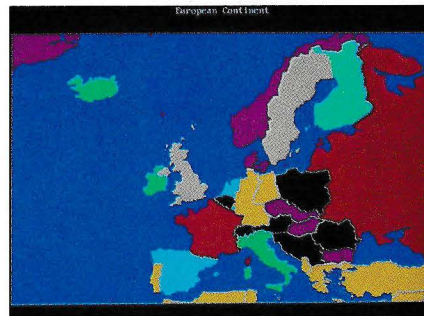

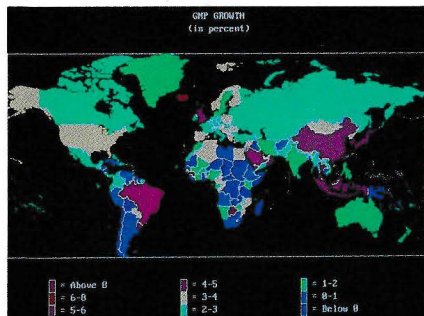

**Save \$80**

A computerized world atlas

# PC-GLOBE 3.0

**"...take off to faraway places without ever leaving your chair."**  
 – Personal Computing

In case you haven't noticed, we're fast becoming a "global village." And being informed about countries around the globe is crucial to success in today's international business environment. Not to mention the pleasure having in-depth information adds to world travel.

That's what PC Globe 3.0 is all about. This computerized atlas provides detailed maps, graphics, facts, and figures in one efficient source. It brings the entire world to your desk – instantly.

An extensive database makes PC Globe 3.0 a sophisticated tool for corporations and government. A wealth of socio-economic and cultural information allows your marketing reports, presentations, and other work to be as thorough as they are easy to produce. You can even export data to your word processing, spreadsheet, or desktop publishing program.

If you're traveling – or providing

- ◆ Get instant profiles of 177 countries.
- ◆ Take advantage of a wealth of maps, facts, figures, and graphics.

travel advice – PC Globe 3.0 gives you instant access to time zones, point-to-point distances, international dialing codes, climates, tourists attractions, and visa requirements. You can print comprehensive country profiles, or export travel information to WordPerfect.

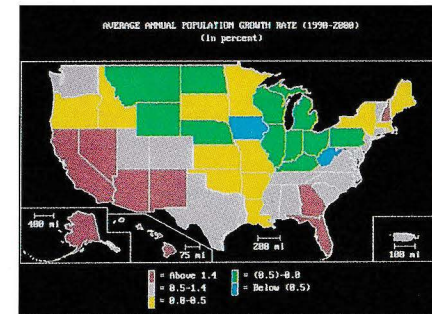

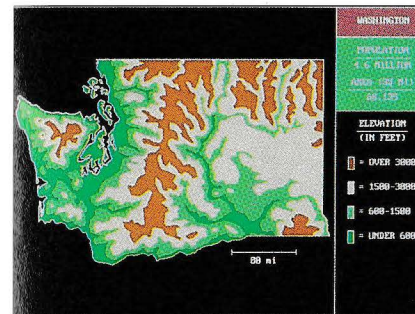

Colorful maps, charts, and country comparisons make world geography come alive, whether you're a student or just interested in the world around you.

If you need quick access to complete information about almost any part of the world, you need PC Globe 3.0! (Save \$20 when you buy both PC USA and PC Globe 3.0!)

Put the United States in your PC

# PC USA

**The power and simplicity of PC Globe comes to the USA.**

- ◆ Get detailed geographic and demographic information.
- ◆ Export text and graphics to other programs

What PC Globe (described on opposite page) does for the world, PC USA does for the United States. Namely, pack an atlas worth of valuable information about each of the 50 states plus Puerto Rico into an easy-to-use program.

Colorful, detailed maps show major natural features, elevations, and the location of each state's largest cities. They also display useful statistical information for both the U.S. and key regions.

An up-to-date database reveals population trends, education, employment, and industrial statistics. Plus electoral data, state histories, climate trends, tourist attractions, average per capita incomes, state economies, crime rates, commodities and more.

PC USA even includes an area code and zip code location identifier. Self-updating time zone map. Point-to-point distances between major cities. And a simple user interface that supports a mouse for "point-and-shoot" operation.

The maps and colorful bar charts make it easy to compare data between states and regions. And the information you retrieve can be exported to popular word processing, spreadsheet and desktop publishing programs.

Whether you need information about the USA for business, like to travel, or are studying U.S. geography, PC USA is an indispensable tool. (Save \$20 when you buy both PC USA and PC Globe 3.0!)

Electronic art for business

# PICTUREPAKS

Special Offer

- ◆ Use distinctive, professional pictures & symbols to add visual excitement to all your written communications.
- ◆ Works directly with WordPerfect 5, Harvard Graphics, PageMaker and other programs.

**A**dd clarity, style and visual impact to reports, newsletters, and presentations, with distinctive PicturePak electronic clip-art.

Each edition includes 180 images in both CGM and PCX file formats. Now you can use the same electronic art in WordPerfect 5, Harvard Graphics, PageMaker and other programs.

CGM vector files – the highest quality electronic images available, are ideal for output to HP compatible laser printers, dot matrix printers, film recorders, plotters and PostScript printers.

PCX raster files are the most commonly accepted format in the graphics world, and the easiest to edit. Plus, PicturePak images are created in a size and weight that minimizes the “ragged edges” common to PCX files when they’re enlarged.

PicturePaks – the universal solution to *all* your electronic art needs. Order three or more and save up to \$136!

Download fonts while you work

# BACKLOADER

- ◆ Save time – load soft fonts while you work.
- ◆ Find out which fonts are loaded at any time.
- ◆ Use soft fonts with all your programs, including WordPerfect, 1-2-3, and dBASE.

**"At last, soft font management is virtually care free."**

*The Best Book of WordPerfect*

Using downloadable soft fonts adds a new dimension to the appearance of WordPerfect documents. Unfortunately, it also adds something else – time.

That's why BackLoader 2 was developed. This smart piece of software makes the entire downloading process completely automatic. It actually "watches" what you're printing and downloads the fonts you need as you change fonts in your document. It also makes sure you never exceed your printer's memory or 32 font limit by deleting the fonts you use the least to make room for the ones you really need.

With BackLoader 2, you can mark all of your WordPerfect fonts as "already present", even if you use hundreds of fonts. The program works with any HP LaserJet or compatible laser printer using soft fonts from manufacturers like Hewlett Packard and Bitstream. And it takes less than 32K of memory.

If you don't need the complete automation of Backloader 2, get Backloader 1. It downloads soft fonts in the background while you work. Using simple pop-up menus, you can specify individual fonts or an entire list, suspend or resume downloading, or select another set of fonts at any time.

So stop waiting for your fonts to load, and start getting something done — with Backloader.

Easy-to-use "free form" chart design

# CORPORATE LADDER

- ◆ Create organization charts, decision trees, procedure diagrams and more.
- ◆ Use "free form" design for quick and easy charting.
- ◆ Update charts in seconds as your company grows and changes.

**"...excels in flexibility."**

*- PC Magazine*

Organization charts show at a glance exactly how a company is structured – who works for who, how departments interact, what positions need to be filled.

And Corporate Ladder is the fast, easy way to get your ideas on paper. Now you can create professional organization charts, procedure diagrams, decision trees and more – in minutes!

Just type the information you want, and with one keystroke, create crisp, clean boxes. Another keystroke draws accurate connector lines. Use the "Finishing Touch" feature to automatically space your chart and align boxes. Then, print your chart on virtually any dot matrix, laser or daisy wheel printer.

Because you see your chart right on the screen, using Corporate Ladder is natural and intuitive – unlike competing programs that require you to fill in complex tables of names and positions.

With Corporate Ladder, it's simple

to update charts as your company grows and changes. It automatically positions headings and dates, and a "cut and paste" feature lets you take pieces of existing charts and blend them into new ones.

Whether you want to get organized or just impress your boss, Corporate Ladder is the answer.

**Special Offer**

Learn DOS the easy way

# DS TUTOR

- ◆ Master essential skills at your own pace.
- ◆ Includes DS Help, the memory-resident DOS help facility.
- ◆ Includes information on all DOS commands through 4.0.

**"...keep a few spare copies of DS Tutor in your bottom drawer and award them to everybody who gets his own PC."**  
 — PC Magazine

**F**inally, there's a DOS tutorial that's simple — not simple minded! It's DS Tutor, and its guided practice sessions and plain-English explanations will help you master your PC's operating system in no time.

Learn at your own pace, with "hands-on" practice sessions that let you perform DOS functions in a controlled environment. Then apply your new knowledge to real situations with the kind of confidence only experience provides.

Unlike other DOS training programs, DS Tutor covers the entire array of PC operations, including information on configuring your system with a modem, mouse or other peripheral. In the words of PC Magazine, DS Tutor "explains almost every facet of operating a PC."

And DS Tutor isn't just for novices. Experienced users too appreciate the

wealth of information available instantly with DS Help, the memory resident glossary and help facility. From copy commands to pipes and filters, DS Help has the answers.

Your personal typing instructor

# MAVIS BEACON TEACHES TYPING

- ◆ The only typing program that combines the methods proven best.
- ◆ Checks your progress and tailors the perfect course to your individual needs.
- ◆ Graphs, sound, and games make learning fun and effective.

"Of the many good typing programs available, Mavis is the best we've seen."  
- New York Times

**I**f you've had it with typing programs that think people learn by typing "asdf" over and over again, maybe it's time you hired your own personal typing instructor - Mavis Beacon. She'll tutor you with customized lessons designed to help you work on the areas you need to emphasize most. And the tuition is very reasonable.

Mavis Beacon checks your progress every step of the way. Using artificial intelligence techniques, the program tailors the perfect course for your individual needs - combining learning methods proven best from decades of analyzing how people learn to type.

Working with Mavis Beacon, you'll have the world's finest typing instructor at your side each time you practice. When you make mistakes, Mavis explains them in conversational sen-

tences, not just bleeps and bells. To make learning as fun as it is effective, Mavis Beacon includes *Guide-Hands* that type with you to show you perfect technique, *Road Racer*, an arcade-style typing game, and musical *Tempo-Typing* with an on-screen metronome.

If you use a computer, you need to know how to type. And no one teaches you better than Mavis Beacon. (Retail price: \$49.95)

Boost reading speed and enjoyment

# EVELYN WOODS

- ◆ Read 3 to 10 times faster.
- ◆ Improve concentration, comprehension and retention.
- ◆ Learn techniques used by thousands of Evelyn Woods students.

**"...the Evelyn Woods Dynamic Reader has a lot to offer...[stressing] the importance of comprehension and retention as well as speed."** – PC Magazine

**W**e run faster, fly higher, and dive deeper. But most of us still read at a 19th century pace of 300 words per minute. Now you can learn to read as fast and efficiently as you want – 3 to 10 times faster, in fact – with the Evelyn Woods Dynamic Reader. And you can do it *without losing the enjoyment of reading.*

The Dynamic reader is not a skimming or key-word association technique, but a totally different concept that dramatically increases reading speed – while registering every word, idea and shade of meaning. Like thousands of Evelyn Woods students, you can use it every day to improve concentration, use more of your mental capacity, and gain greater reading enjoyment.

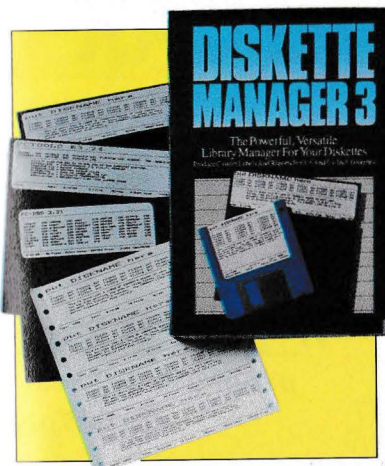

The Evelyn Woods Dynamic Reader provides all the tools and exercises you need. Using your computer, you'll develop new skills at your own pace and convenience, at home or the office. The program automatically tracks your progress and displays the results with on-screen bar charts.

Every day the gap widens between how much we *do* read and how much we *should* read – that's the nature of the fast-paced world we live in. Now there's a way to catch up – painlessly.

**EVELYN WOODS: \$39.95**

Stop scribbling on your diskettes!

# DISKETTE MANAGER 3

- ◆ Catalogs files on each diskette and prints labels in seconds.
- ◆ Produces library reports to track diskettes & files.
- ◆ Completely menu driven for fast, easy operation.

**FREE - 200 Labels For 5.25" And 3.5" Disks.**

**D**iskette Manager 3 is the easiest, most versatile way to keep track of the files on your floppy diskettes – and avoid time wasted searching for the file you want. Completely menu driven for fast, easy operation, it quickly reads and catalogs your files, and prints a neat, professional label for each diskette.

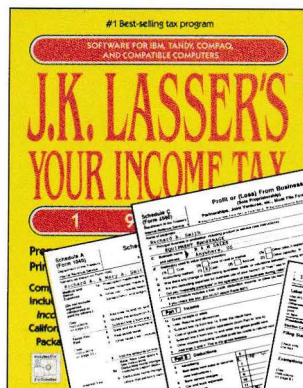

You'll see at a glance each diskette's title, the names of up to 64 files, the date created, and space used. Plus you can add up to eight lines of comments. If needed, a second label, with up to 48 additional file names, prints automatically.

Use the pre-designed label formats provided or design your own – label size, shape and appearance are up to you. Diskette Manager 3 works with virtually any serial or parallel printer, and comes with 100 labels each for both 5.25" and 3.5" diskettes.

Make April 15 a lot less taxing

# J. K. LASSER'S YOUR INCOME TAX

- ◆ Prepare your 1989 Federal tax return and plan for 1990.
- ◆ Print IRS-approved forms, including the 1040.
- ◆ Read Quicken files automatically.

**"...the easiest PC tax program to use..."**  
- InfoWorld

only once. And there's on-line instructions for every line, augmented by complete explanations in J. K. Lasser's respected tax guide. When your return is completed, the program prints IRS-approved forms on any Epson or IBM Graphics compatible dot-matrix printer. What could be easier?

Unlike competing programs, Your Income Tax handles an unlimited number of tax returns - so you can use it for every member of your family. Plus, it's Analysis feature lets married couples compare the cost of filing joint versus separate returns.

This year, avoid the April 15 crunch - with J.K. Lasser's Your Income Tax. (Also available for CA, NY, and NJ state returns.)

**J. K. LASSER'S  
YOUR INCOME TAX: \$79.95**  
5.25" & 3.5" disk #JKL21-2

**W**hy pay someone else to do your taxes, when you can prepare them yourself more easily - and take advantage of the time-tested advice available in J.K. Lasser's Your Income Tax?

The do-it-yourselfer's tax bible for more than 50 years, J.K. Lasser's Your Income Tax is also the #1 selling PC tax program. And no wonder, with its on-line interview system, fast and easy data entry, and 1990 tax planning module.

First, the on-screen questionnaire helps you decide what forms you need to file. Then, a series of pull-down menus takes you through each one, line by line. Every form is linked, so you enter data

The world's best selling financial software

# QUICKEN

- ◆ Manage finances quickly and easily.
- ◆ Automate routine financial tasks.
- ◆ Gain important insights into your complete financial picture.

**"Quicken is about as good as software gets: powerful, affordable and easy to use."**

- PC Magazine

It used to be that using a computer to balance your checkbook was considered overkill. Then Quicken came along, bringing with it a way to save hours of time and effort normally spent managing your personal and small business finances.

Of course, Quicken goes far beyond merely helping you balance your checkbook (although it does that, too), providing insights into your finances you simply can't get without a computer.

Quicken handles *all* your finances. Write checks (or pay bills with the CheckFree electronic bill payment service). Manage credit cards. Maintain tax records (it even links with the best selling tax software, J.K. Lasser's Your Income Tax - page 38). Establish budgets. And track assets, liabilities, and net worth with reports that give you a new perspective on your financial position.

Quicken is easy to use because it doesn't force you to change your habits, learn new accounting terms, or master a complex user interface. The

screens are as familiar as things you use every day - a blank check, a piece of paper, a business form. Plus, Quicken does so much of the work for you, you're done in less than half the normal time.

Quicken is perfect for small businesses, too. It provides complete and flexible reports, and helps you manage cash, track payroll and print paychecks, organize accounts receivable and payable, and more.

So order Quicken today. You'll put an end to financial hassles and save \$10 too. Or get ready for the tax season with Quicken and J.K. Lasser for just \$99.95 - a \$40 savings!

Prepare your will without a lawyer

# WILLMAKER

- ◆ Prepare your own legally binding will.
- ◆ Uses safe, proven will provisions.
- ◆ Keep your will up to date without additional cost.

**"...helps you make the best of the worst...assuring that the will you write works the way you want it to."**

**- PC Magazine**

**D**o you have a will? Do you keep it up-to-date as your estate, family size and other personal needs change? If your answer to either question is no – you need WillMaker!

Praised by the American Bar Association, WillMaker makes it easy to write and update your own legally binding will – without a lawyer.

Using a simple question and answer format, and proven, time-tested will provisions, WillMaker enables you to provide for your spouse or domestic partner, children, friends and others. Leave specific property or cash bequests to people or charities, and forgive debts. Name a guardian and alternate for your children. Create a trust, name an executor for your estate, and more.

With WillMaker it doesn't cost a penny to update your will as your personal needs change. And it's the most flexible will writing program

available, offering alternatives to meet the needs of just about anyone. WillMaker wills are valid in all states except Louisiana.

Add *For the Record* (\$49.95) and you can easily organize all your essential legal, financial and personal information, and provide instructions to loved ones regarding your financial affairs.

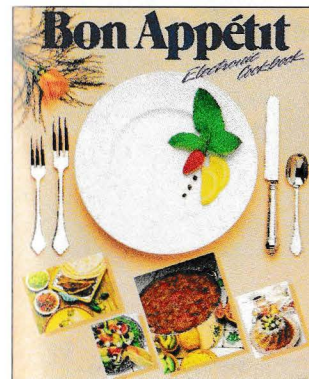

Keep your affairs in order and avoid unnecessary legal fees. Order WillMaker and *For the Record* today!

After 2000 years, the ultimate Bible

# PC BIBLE STUDY

- ◆ Uncover the wonders of the Bible quickly and easily.
- ◆ Compare Bible translations instantly.
- ◆ Copy Bible text into your word processor.

For 2000 years, people have used printed versions of the Bible for study, research, and reference. Which means for 2000 years, people have spent long hours tediously turning pages from one verse to another, and using side-by-side Bibles to compare different translations.

But now PC Bible Study taps the power of the personal computer to make Bible study as easy as it is enjoyable. With PC Bible Study, you'll discover areas of the Bible you never explored before – and get a new perspective on familiar verses – as this fast, simple program uses your computer to bring this great book alive.

Imagine going to any chapter of any book in the Old or New Testament in seconds. Or finding every occurrence of the exact word or phrase you're looking for. Or getting instant comparisons of different Bible translations (PC Bible Study comes with the King James, New International, and American Standard versions – you can add other versions later).

And PC Bible Study lets you transfer the information you retrieve into your paper, report, sermon, or other document – all by doing nothing more than pressing a few keys. If you prefer, use the program's own built-in word processor.

Yet, despite its amazing power and endless versatility, PC Bible Study is simple to use – just choose the function you want from clear on-screen menus. Whenever you need more information about a command, a comprehensive help system is just a keystroke away.

With all the ways PC Study Bible simplifies and enhances your Bible study, no wonder we call it the "ultimate Bible." Order your copy today.

Chart your family history

# FAMILY REUNION

- ◆ Organize family information easily and efficiently.
- ◆ Create a comprehensive genealogy.
- ◆ Print descendant and pedigree charts and other family information.

"...produces one of the most elegant computerized six-generation ancestor charts you'll find..."

– PC Magazine

Every family has its own unique, personal story. And now you can use your computer and a very friendly piece of software to record yours.

Family Reunion is a simple, efficient tool to organize your family's birth certificates, marriage certificates, death certificates, birthdays, addresses, descriptions of important events, and other facts.

But it's also much more than that. Because Family Reunion helps you chart your ancestors with an easy-to-use format that shows up to six generations per page. Now you can chart and print your lineage as far back as you can trace it.

Other charts let you show the direct descendants of any selected ancestor in a direct line, descending tree, columnar, or side-by-side format. You can also enter biographical

sketches and comments about any family member. Print a list of your relatives with their birthdates. Or print just those relatives with a birthdate in a certain month or who will be a given age. Family Reunion even prints relatives' addresses on mailing labels – great for organizing family reunions.

All of this versatility comes in a program so simple you can start using it right away. So order Family Reunion today. After all, if you don't preserve your family's story, who will?

Attention aspiring architects!

# FLOORPLAN

- ◆ Ideal for space planners, real estate appraisers and home users.
- ◆ Requires no drawing or drafting experience.
- ◆ Includes a complete library of architectural figures.

**C**reated especially for those unfamiliar with CAD (computer aided design) programs, FloorPlan is ideal for a multitude of office and home applications – from space planning to designing your dream house. And, it requires absolutely no drawing or drafting experience.

Pull-down menus and optional keyboard or mouse control make FloorPlan incredibly easy to use. Forget XY coordinates and other CAD lingo. Draw lines, walls, boxes, circles, dots and polygons right on the screen. Calculate square footage automatically. And add text using four fonts in three sizes.

No lightweight, FloorPlan offers features normally found only in more costly programs: like a library of 40 common architectural figures – from bath and kitchen fixtures to a grand piano; commands to move, erase and copy portions of a drawing, and rotate or magnify objects; and an array of 12 different fill patterns to choose from.

Plus, Floorplan supports most dot matrix printers and the HP LaserJet series.

### *EEK, a mouse!*

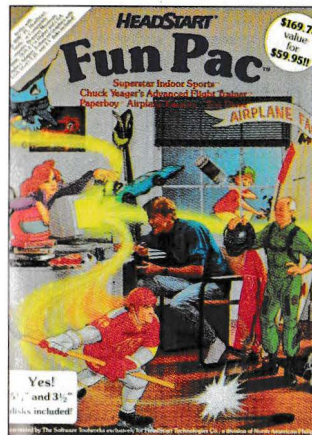

But not just any mouse. This is the two-button, opto-mechanical, Microsoft Mouse compatible variety that connects to your PC's serial port. Made right here in the USA by the world's largest mouse manufacturer, it includes a lifetime limited warranty. Order FloorPlan and the mouse for just \$99. (Mouse only: \$69 #MSE51-5)

Five great games at one great price

# FUN PAC

- ◆ Get five popular computer games in one specially priced package.
- ◆ Save over \$100 compared to buying the games individually.
- ◆ Do everything from fly a plane to drive a Ferrari without leaving your PC.

**O**ne of the great things about working with a PC is that you can have fun with them when your work is through. And nothing packs more more fun into one package than the Fun Pac from HeadStart.

You get five games from Electronic Arts, Mindscape, Accolade, and Tengen for one low price. And what games they are:

Fly faster and higher with **Chuck Yeager's Advanced Flight Trainer**. Test 14 different aircraft, including experimental jets. Unique Wind-screen Cursors teach you in-air as you soar through flawless takeoffs, landings, aileron rolls, Cuban 8's – even hammerhead stalls.

With **Airplane Factory** you can actually design the planes you pilot in Chuck Yeager's Advanced Flight Trainer. Fly a Sopwith Camel with the power of an F-16. Or a P-51D Mustang with the masking capabilities of the Stealth Bomber.

Rev up your engine and experience the power and performance of the

world's most exotic cars with **Test Drive**. This driving simulation is guaranteed to get your adrenaline pumping as you hit warp speed in a Ferrari Testarossa, Lotus Turbo Esprit, Porsche 911 Turbo, Lamborghini Countach or Corvette

Hop on your bike for a freewheeling ride in the "burbs" with **Paperboy**. There are papers to be delivered, robbers to be foiled, and fame and fortune to be won in this zany arcade-type game.

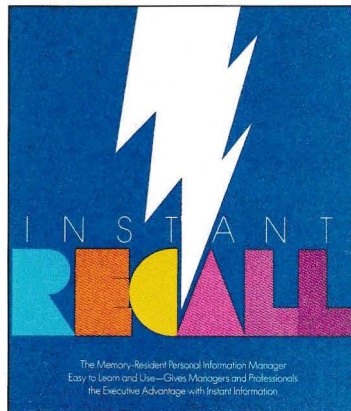

**Superstar Indoor Sports** includes four separate games. You'll be dazzled by the rush of Air Hockey, the precision of Darts, the concentration of Bowling, and the split second timing of Ping Pong.

There's no better way to have fun with your PC than with the Fun Pac. And, with this special price for five games, think of all the fun you'll have with the money you save.

The instant personal information manager

# INSTANT RECALL

- ◆ Organize a broad range of information.
- ◆ Increase personal productivity.
- ◆ Pop up over other software for instant access.

*"...lets you manage a broad variety of information easily."*

*— InfoWorld*

**J**ust 32K. That's all it takes for Instant Recall to work its personal information management magic for you.

And what magic it is — because Instant Recall is the only full-featured personal information manager (PIM) that's RAM-resident. Just pop it up over your other software whenever you need it — the way PIM's were meant to be used!

Instant Recall connects all the pieces of information you need to run your life. And thanks to its intuitive interface and context-sensitive help, you can use it right out of the box.

Toss in information any way you like — dates, tasks, ideas, facts — and Instant Recall organizes it into four familiar formats:

**Notes:** Keep lists, memos, and bright ideas available at your fingertips — up to 30 pages of text per item.

**Tasks:** Monitor and delegate tasks, with priorities, target dates, reminders, and overdue notices.

**Schedule:** Track appointments, trips and activities, with conflict

checking, recurring events, and week-at-a-glance display.

**People:** Enter names, addresses, phone numbers, and unlimited notes, with follow-up dates and on-screen reminders.

View these types of information separately — or together on a single screen. Find what you want quickly, searching by topic, person assigned, date, priority or text string.

Instant Recall alerts you to time-sensitive information, helping you meet deadlines and commitments. And it includes an activity timer, phone dialer, alarm messages, scheduling for multiple people, flexible reports, mailing labels, and import/export capabilities.

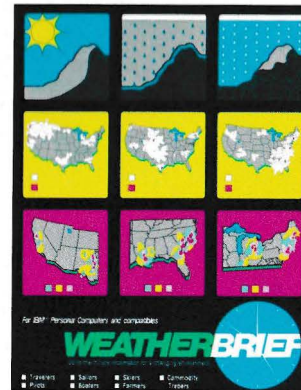

So order Instant Recall today. And be on top of things tomorrow.

Up-to-the-minute weather information

# WEATHERBRIEF

Special Offer

- ◆ Get local, regional, national and international weather information.
- ◆ View radar, temperature, precipitation, cloud cover and other color weather maps.

*"...eye-catching weather maps rival those found in USA Today... visually exquisite!"*

*— PC Computing*

**W**eather. Everyone talks about it, but no one does anything about it. Not until WeatherBrief came along, that is. Now it's easy to find out how the weather will affect you, your business, and your recreation activities.

WeatherBrief provides access to a vast array of weather information — from current and long range forecasts, highway reports, and climate statistics; to aviation, marine, recreational and agricultural outlooks.

Plus, WeatherBrief generates beautiful color weather maps showing satellite radar, precipitation, cloud cover, surface maps, jet stream, soil temperature, freezing levels, lightning strikes, hurricane tracks, and more.

It's easy to use, too. Just select the information you want from the extensive menus. Then, WeatherBrief automatically connects you with the

on-line database used by TV and radio meteorologists across the country, and retrieves your data in seconds. (On-line charges are as low as 35¢ per minute, and the call is free.)

Whether you're a pilot, boater, farmer, commodity trader, cross country trucker, or just interested in the weather — you'll find WeatherBrief fascinating and useful. (Also available with the Practical Modem 1200, the Hayes compatible, half-card modem with a 5-year guarantee.)
